NEBDN is a limited company registered in England & Wales No. 5580200  
Registered with the Charity Commissioners No. 1112331

## **NEBDN NATIONAL CERTIFICATE ACCREDITED TRAINING CENTRES**

The majority of accredited dental nurse training takes place in colleges of further education, dental hospitals, primary care trusts (PCTs) or private training organisations. It is also permissible for an individual dental practice to provide in-house training in both the practical and theoretical aspects for its dental nurses provided it is accredited by NEBDN. Information on the standards and accreditation process is available on request from the NEBDN Quality Assurance Co-ordinator at NEBDN Head Office.

In relation to the following pages, please note that:

- ♦ Centres which are marked (\*\*\*) are new courses which have submitted satisfactory documentary evidence of meeting the accreditation standards. They have been awarded Initial Approval to commence training and will be considered for full accreditation after the first examination.
  
- ♦ Centres which are marked (\*\*) are in the first year of operation and have been audited. Providing their results from the first examination are in line with the national average and if their course review is satisfactory they will be awarded full accreditation.
  
- ♦ Centres which are marked (\*) have submitted satisfactory documentary evidence of meeting the accreditation standards and arrangements for an audit are in place. Alternatively they may have had an audit visit but need to provide some further pieces of evidence.
  
- ♦ Centres which are marked (+) have provisional accreditation and will be reviewed after a prescribed period.

This list of accredited training centres is revised and updated on a regular basis as more centres receive accreditation. Trainee dental nurses and/or their employers can ensure a training centre has NEBDN accreditation before enrolment by asking to see their Certificate of Accreditation or contacting the Quality Assurance Co-ordinator at NEBDN.
